EXCELLENCE IN DESIGN: LOS ANGELES

HARMONY BY DESIGN

Interior designer Shanna Shryne weaves everyday functionality into highly personalized interiors infused with character and style

Striking the perfect balance between beauty and practicality is a talent interior designer Shanna Shryne has honed over her more than two decades in the industry. From midcentury modern and California chic to Spanish or contemporary interiors, the diversity of her coast-to-coast portfolio boasts a range of styles, each an elegant reflection of her clients' unique personalities and lifestyles.

"We want our clients to be thrilled with both the aesthetics and functionality of their space," Shryne says. "When a space resonates with a client visually but also works with how they live, we know we've achieved a harmonious balance in our design."

Through a process of close collaboration and communication, Shryne and her team at Shanna Shryne Design work with clients to weave their ideas into the design plan that elevates their vision while meeting their day-to-day needs. Shryne's knack for bringing creative, unexpected elements to interiors has earned the firm a reputation for creating timeless spaces with character, each a distinctive expression of those who live there.

"We listen closely and get to know you," Shryne explains. "Then we look for ways to bring creativity into the design. Whether it's an amazing light fixture or an unusual tile pattern, the details will make a space exceptional and uniquely yours."

Impeccable design expertise and meticulous processes coupled with the firm's commitment to utilizing sustainable materials and optimizing natural light ensure every project is both beautiful and mindful of its impact on people and the environment. The goal, Shryne says, is enhancing her clients' quality of life.

She says, "When a space is both beautiful and functional, we've achieved true harmony."
