DESIGN ST. LOUIS

Above and Beyond

Peg Hammerschmidt's sought-after interiors marry an artist's eye and an artisan's skill with perfectly realized, bespoke design.

For more than three decades, interior designer Peg Hammerschmidt has brought personalized interiors to the St. Louis area and far beyond. From Los Angeles to Dublin, her distinctive contemporary spaces grace the homes of clients seeking inspired design that is both highly individualized and beautifully crafted.

Her bespoke ethos shines through in moments large and small, from reimagining the interior architecture of a space and custom designing all of the cabinetry to creating the perfect piece of furniture to round out a room's new visual identity.

"Truly personal design is in the details," says Hammerschmidt, founder of Hammer & Schmidt Design Inc. "Every client has a unique set of desires, and what I love most about my work is realizing that vision."

Illustrating an artistic eye for color and with an artisan's expertise with materials, Hammer & Schmidt's portfolio boasts a seemingly

unbounded capacity for inspired design.

Here, a client's orchids are integrated into a showstopping centerpiece kitchen countertop; there, an ordinary dining room is transformed into the cozy club lounge of a homeowner's dreams.

This fresh take on everyday spaces evokes visual excitement and invites the eye to explore. Far from a traditionalist, Hammerschmidt manifests interiors that are true expressions of those who live in them.

"My goal is to bring ideas to the table that inspire my clients to see

their space in a way they haven't before," she says. "If I can take a room above and beyond what a client sees as possible, I've succeeded."
