DETROIT LAW

# Fighting for Justice

For more than 50 years, Lipton Law has employed experience and tactical prowess to relentlessly advocate for injured individuals.

**E**xperienced and intelligent attorneys, coupled with a team approach, make Lipton Law highly regarded as a top personal injury firm skilled at handling complex cases.

“We wield a steel fist with a velvet glove,” explains Jody Lipton, partner. “We know how to be cordial and professional with our opponents on the surface, but we are tough underneath, and we always fight aggressively for our clients.”

Siblings and managing partners of the firm, Jody and Marc Lipton continue the legacy and core values their father instilled when he started the practice in 1964. Trusted by injury victims and hundreds of referring attorneys throughout the legal community, Lipton Law handles high-end personal injury matters that involve intricate legal issues and catastrophic injuries. The firm is well known for assisting with cases related to medical malpractice, nursing home neglect, trucking and motorcycle accidents, and multidistrict litigation involving mass torts, to name a few.

Expanding and strengthening the Lipton Law team, Jody and Marc selectively recruited top lawyers at the peak of their professional

careers to join the Southfield Michigan-based firm. With a combined experience of over 220 years, the firm’s 10 attorneys employ a collaborative team approach. “We work together so clients get the expertise of not just one but several skilled attorneys, ensuring no stone is left unturned,” says Jody.

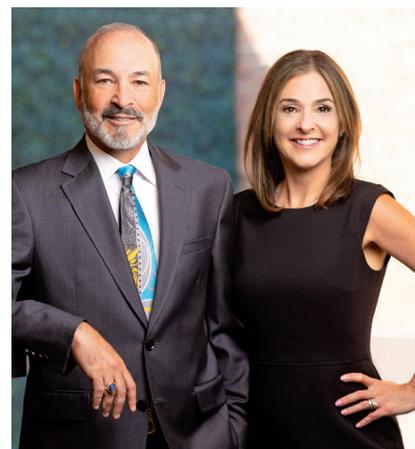

The firm’s well-rounded staff also includes two full-time nurses, whose clinical experience and knowledge of medical terminology solve mysteries in medical records that others may not notice.

“Knowing the medical issues better than anyone allows us to obtain full compensation for our clients,” says Marc.

## DRIVING DEFENSE

Harnessing the experience of a big firm, Lipton Law maintains an individualized, boutique feel with personalized attention as its top priority. Attorneys are zealous advocates while counseling clients on sensitive and personal issues. From day one, clients are valued, cared for, and treated like family.

“We are always available and accessible,” says Jody. “Clients have our personal cell phone numbers, and we go to their homes to

get to know them and understand their goals.”

Clients are assured their claims will be investigated thoroughly and that they will be actively involved to understand the progress of their case.

Earning clients’ trust and representing them fairly is a responsibility Lipton Law takes seriously, as is going above and beyond to help clients succeed in the face of tragedy.

“It is a privilege to use our knowledge and passion to be a guiding light,” says Jody.

“Corporations and insurers have unlimited resources to oppose paying compensation to individuals. We give them their day in court,” adds Ronald Weiner, partner. “Helping them improve their lives is very rewarding.”
