DESIGN IN DALLAS/FORT WORTH

ELUCIDATED EXPERIENCES

K-SAMONE & CO LLC transforms untapped real estate into audacious spaces where luxury meets one's originality.

As the CEO and founder of burgeoning powerhouse interior design and real estate development firm K-SAMONE & CO LLC, designer K'AY SAMONE knows a thing or two about manifesting big and expansive ideas. Her mission: elevating houses to homes, bland interiors to wow-factor moments, and transforming risk-averse clients into design-savvy savants.

"We love fashioning homes to express the originality and story of our clients," she says. "All of our spaces have a story to tell."

The firm's stunning luxury redesign of a Dallas-area town-home exemplifies this ethos, telling the story of the owner's Indian heritage and reflecting her aspirations for beachside living. A perfect layering of rich, spiced hues, luxuriant textures, and expertly curated furnishings and accessories fills the space with sophisticated warmth, while a showstopping wall treatment and focal point chandelier elevate the aesthetic to one of impeccable yet comfortable formality. The energy is decidedly jet-set-Goa-getaway, a luxe retreat where the fashionable come to rest and recharge.

It is a space purely reflective of the client and elucidates her own originality, K'AY says, while illustrating a trademark of her firm's knack for guiding and empowering clients to maximize the full potential of their homes.

"Let's be audacious. Let's take risks, find your originality, and discover the story your space should tell about you," she says. "When we've achieved that, your house will be your home."
