

# DESIGN TO COME HOME TO

## DESIGN CLEVELAND

### Beauty meets function in Wendy Berry's thoughtfully elegant interiors.

For more than 15 years, Wendy Berry has been sought after for her award-winning interiors—timeless designs that have earned her and her talented team at W Design Interiors a host of industry accolades. Greeting the acclaim with her signature warmth and good humor, Berry is quick to point out that the praise she earns from happy clients stands above all else.

“At the end of the day, what matters most is delivering something meaningful that works for our clients,” she says. “There is no such thing as a beautiful interior that doesn’t function for the people who live in it.”

When clients recently approached her for a modern, farmhouse-style reimagining of their home, functionality was top of mind for Berry and her team. With select pieces from the W Home Collection, the space contains specifically curated elements such as a bright quartzite countertop framed by a textured, naturally inspired backsplash. Stylish and built to last, the hardware in the home supports the needs of a large family.

“Their kids are grown and out of the house, and they are avid travelers,” Berry explains. “We designed the home with a turnkey concept that gives them some freedom and flexibility. It’s a stunning home with plenty of transitional space for visiting family, but it is easy to close up and take off when the spirit moves them.”

A sophisticated palette of neutral tones, inviting textures, and sleek surfaces imbues the interior with its updated farmhouse aesthetic, with remarkable architectural detailing, inspired juxtapositions of volume, and the integration of Chagrin River views that connect the space to the surrounding environment.

“Most importantly, our clients love it,” Berry says. “That’s exactly the kind of design success my team and I strive for.”

**CLOCKWISE FROM TOP:** Rift white oak cabinetry, framed iron windows, and ceramic tile painted to mimic brick usher a farmhouse atmosphere into a sleek kitchen. Black fixtures and curated ceramics incorporate a slightly modern feel to a wet bar. Wendy Berry, owner and principal designer. A classic color palette, eye-catching patterns, and a statement chandelier contribute to a living space that is cohesive and lively.
